New Hampshire's Favorite Mountain...

Why do more skiers choose Loon than any other mountain in NH? An award winning guest services program is part of the answer. Constant improvements, a strong commitment to snow making, outstanding grooming, a superb ski school, and plenty of lodging close by help, too. But the real and rightful reason for Loon's popularity is the quality of the total experience. After all, it's the Great White Mountain. **I7**

Come experience the New Hampshire that only skiers know. See it from the snow-covered slopes and trails of the state's over 60 alpine and cross-country centers during a ski season that stretches from November to April.

ALPINE SKIING in America began in the White Mountains of New Hampshire over 60 years ago; today there are over two dozen alpine areas located all over the state. Big, world class mountains whose trails are larger than smaller mountains that are favorites with residents and visitors alike. No matter what their size, these mountains are committed to offering the finest skiing in the East; nearly all have snowmaking, and excellent lodging including ski schools and equipment rentals.

Prefer to see the countryside on skinny skis? You'll find a wealth of CROSS COUNTRY SKIING here. There are over 30 touring centers offering groomed and tracked trails; or you can make your own tracks on the trails through State Parks and the White Mountain National Forest.
